

PRONTECH™ Turf

- ▶ PronTech Turf is a broad spectrum Fungicide/Algaecide/Bactericide
- ▶ PronTech Turf helps control and prevent disease pressures on both Greens and Fairways
- ▶ PronTech Turf can also be used to clean out irrigation systems and irrigation ponds
- ▶ PronTech Turf is both a contact and systemic fungicide
- ▶ PronTech Turf is its own wetting agent

PRONTECH™ Characteristics

- ▶ Strong power of penetration
- ▶ Residual effect
- ▶ Works in extreme temperatures
- ▶ Does not oxidize or inactivates in high presence of organic matter
- ▶ Contact time of 30 sec to reduce 99% of microorganisms
- ▶ Works in hard waters of up to 550ppm CaCO_3
- ▶ Non toxic

PRONTECH™- Benefits

- ▶ High Performance
- ▶ Reduces Disease
- ▶ Reduces Contamination
- ▶ Reduces Recovery Time
- ▶ Fast Killing Ratio of Pathogens and Microorganisms
 - ▶ Low Concentrations
 - ▶ High Range spectrum
- ▶ Odor Control
- ▶ Protection of Equipment

PRONTECH™- Method of Action

PRONTECH™ MODE OF ACTION

PronTech™ - Kills on contact

PronTech™ - Reduces water surface tension to easily penetrate to the root

Our encapsulated urea (nitrogen) allows PronTech™ to be systemic. Allowing PronTech™ to fight pathogens from inside out.

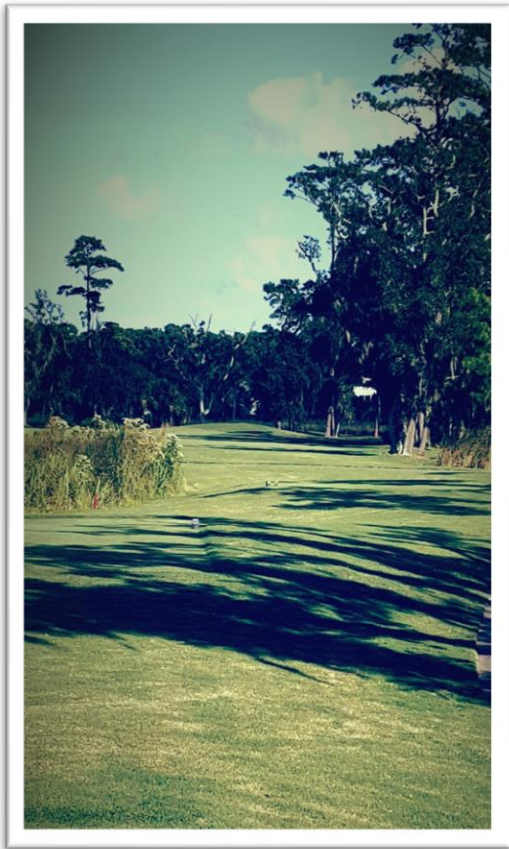

PRONTECH™ Turf - Greens

- ▶ *Can be applied every 10 - 14 days when used at preventative rates*
- ▶ *Helps protect greens from broad range of disease pressures*
- ▶ *Both contact and Systemic*
- ▶ *Cationic action*
- ▶ *Do not tank mix*
- ▶ *Competitive Exclusion: Helps Superintendents manage soil microbes.*

PRONTECH™ Turf - Fairways

- ▶ *PronTech Turf is your smart choice for Fairway disease control.*
- ▶ *Recommended spraying twice in the Fall and once in the Spring*
- ▶ *Helps protect against Spring Dead spot on Bermudagrass and Large Patch on Zoysia Fairways*

PRONTECH™ Applications

- ▶ Bermuda Grass Decline: 1 – 2 oz/1000 ft²
- ▶ Algae: 0.5 – 1.0 oz / 1000 ft²
- ▶ Leaf Spot: 1 oz / 1000 ft²
- ▶ Pythium Blight: 2 oz / 1000 ft²
- ▶ Spring Dead Spot: 2 oz / 1000 ft²
- ▶ Dollar Spot: 1 oz / 1000 ft²

PRONTECH™ Control

Fungi

- ▶ *Xanthomonas campestris*
- ▶ *Anthracnose sp*
- ▶ *Physarium sp*
- ▶ *Rhizoctonia sp*
- ▶ *Sclerotinia homeocarpa*
- ▶ *Fusarium roseum*
- ▶ *Heterosporium echinulatum*
- ▶ *Powdery Mildew*
- ▶ *Helminthosporium spp*
- ▶ *Pseudomonas sp*
- ▶ *Pythium*
- ▶ *Cladosporium*
- ▶ *Ophiosphaerella korrae*
- ▶ *O. herpotricha*
- ▶ **Among Many Others*

Giving you more green for your turf

PRONTECH™ is a fungicide, bactericide, virucide and algicide with a unique mode of action. PronTech™ will treat, control and prevent foliar and root diseases in turfgrass.

PronTech™ contains a 40% active ingredient in granular form that obtains a higher yield to use solution. The remaining 60% improves solubility enabling the product to work in hard water and reduce surface tension by up to 54%. PronTech™ works in a pH range of 3 to 11 and in extreme temperatures. PronTech™ has a strong residual effect, even in the presence of high loads of organic matter. PronTech™ does not create resistance and it works in contact and systemic action for high translaminar movement.

Golf courses can greatly benefit from using PronTech™ to help prevent a broad spectrum of pathogens. It eliminates *Pythium sp.*, *Fusarium sp.*, Dollar Spot (*Sclerotinia Homoeocarpa*), *Xanthomonas sp.*, Brown Patch (*Rhizoctonia sp.*), and many others.

Integrate PronTech™ in your pest management and HACCP sanitation programs and it will greatly benefit your operations. PronTech will penetrate biofilm and destroy contaminated sources that can spread microorganisms through your water lines. It also effectively disinfects equipment, benches and tools.

Use PronTech™ once in a trial and it will change your concept of how effectively to eliminate pathogens and treat your turf
